

THE FILTER BOX COMPANY

ESTABLISHED 1987

SAVE ON ENERGY

80% noise reduction allows you to run your equipment off peak resulting in potential savings of up to \$500 per year for the typical pool

ACOUSTICALLY ENGINEERED
TO REDUCE NOISE BY UP TO

80%

BUILT TO LAST

Manufactured using heavy gauge 0.9 Galvabond Bluescope steel and powder coated in an attractive Dulux powder coat colour
No plastic joinery components. We use only the highest quality stainless steel fasteners ensuring that your Filter Box will stand the test of time

www.thefilterboxcompany.com.au

QUALITY DESIGN

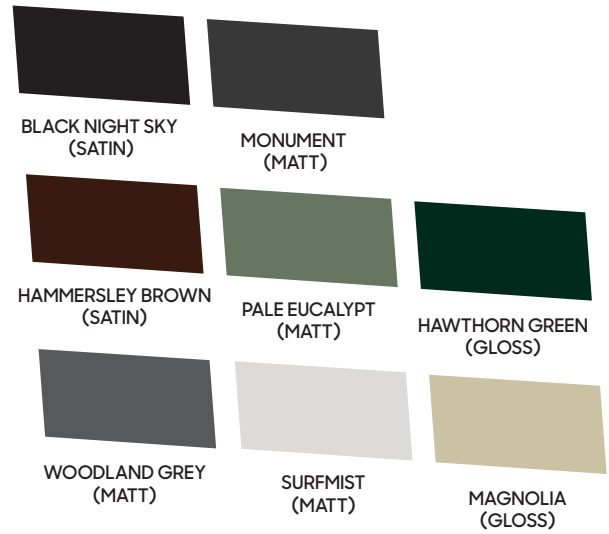

The interior of every Filter Box is lined with 20mm thick high density, zero static, anti-fungal foam using high strength industrial grade contact adhesive.

Carefully calculated ventilation openings allow for sufficient air circulation without compromising noise reduction. Certified by an acoustics engineers report.

Our modular design allows you to expand your Filter Box in stepped sizes, making adding a spa or solar heating motor/pump to your pool easier without the need to buy a complete new unit.

The Filter Box Company provides a 7 year warranty*.
